Waveguide propagation

Ime Rasenberg [1] Bram Jan Spijkerman [1]

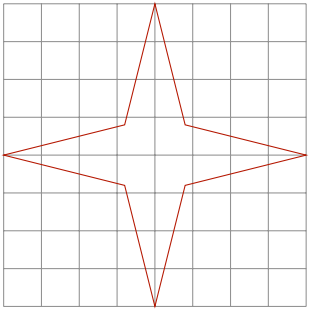
[1]Utrecht Universiteit

A slide title

- A bulleted item
- Another item
  - With sub-bullets
  - And another, with some **bold** text
- And another, at the top level, with *italic* text

A 50-50 split slide

- This side has a bullet
- And another bullet, with text that wraps if it's long



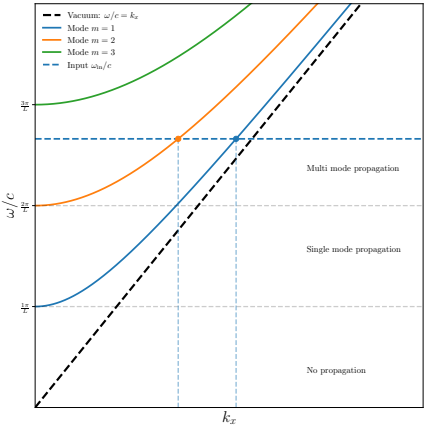
A figure caption

WHY NO WORK

$$\frac{\omega}{c} = \sqrt{k_x^2 + \left(\frac{m\pi}{L}\right)^2}$$

$$\phi_{in}(z) = C_1\phi_1(z) + C_2\phi_2(z)$$

$$C_i = \int_{-\infty}^{\infty} dz\, \phi_{in}(z)\phi_i(z)$$



The figure's caption

A slide with centered text

Some statement that is centered.

(a small note)

A slide with some code

```
/* some code */
def foo(x):
  return x**0.5 + 2*x

/* some can be highlighted */
foo(3)
```

Some explanatory text, in red, with some `monospace` text.
There might be some math, too:

$$\sqrt{x} + 2x$$

A slide with some bracketed text

- Some statement [Some citation]
- Another statement [Another citation]
- A final statement [The last citation]

(a small note)

A slide with some text and a link

- This slide has some text along with a link
  - **Some bold text**: followed by an explanation
  - **More bold text**: followed by more text

- Another bullet, with sub-bullets
  - A sub-bullet
  - Another sub-bullet, with more text
